JMI Brokers LTD is licensed broker from Vanuatu Financial Services Commission as Dealers in Securities under license number 15010

Risk Disclosure Statement

Before engaging in the products offered by JMI Brokers LTD you should be aware of the risks which may be involved in such trading.

You should not enter into a transaction unless you fully understand:

- The nature and fundamentals of the transaction and the market underlying such transactions.
- The extent of the economic risk to which you are exposed as a result of such transactions (and determine that such risk is suitable for you in light of your specific experience in relation to the transaction and your financial objectives, circumstances and resources).
- The legal terms and conditions for such transactions.

You have the responsibility to fully understand the terms and conditions of the transactions to be undertaken, including, without limitation:

1. The terms as to price, term, and expiration date, restrictions on exercising an OTC option and futures and of the terms material to the transaction.
2. Any terms describing risk factors, such as volatility, liquidity, and so on.
3. The circumstances under which you may become obliged to make or take delivery of a Leveraged foreign exchange transaction or Futures contracts.

The high degree of leverage that is often obtainable in trading of the products offered by JMI Brokers LTD can work against you as well as for you, due to fluctuating market conditions. Trading in such instruments can lead to large losses as well as gains in response to a small market movement.

If the market moves against you, you may not only sustain a total loss of your initial margin deposit, and any additional funds deposited with JMI Brokers LTD.

to maintain your position, but you may also incur further liability to JMI Brokers LTD. You may be called upon to “top-up” your margin by substantial amounts at short notice to maintain your position, failing which JMI Brokers LTD may have to liquidate your position at a loss and you would be liable for any resulting loss. You may sustain substantial losses on a contract or trade if the market conditions move against your position. It is in your interest to fully understand the impact of market movements, in particular the extent of profit/loss you would be exposed to when there is an upward or downward movement in the relevant rates and the extent of loss if you have to liquidate a position, if market conditions move against you.

Under certain market conditions you may find it difficult or impossible to liquidate a position, to assess a fair price or assess risk exposure. This can happen, for example, where the market for a transaction is illiquid or where there is a failure in electronic or telecommunications systems, or where there is the occurrence of an event commonly known as “force majeure”. Placing contingent orders, such as “stop-loss” orders, will not necessarily limit your losses to the intended amounts, as it may be impossible to execute such orders under certain market conditions. When placing a stop order or stop loss order, you must be aware that in certain market conditions you may be filled at a different price than initially requested.

Because the prices and characteristics of over-the-counter transactions are individually negotiated and there is no central source for obtaining prices, there are inefficiencies in transaction pricing. We consequently cannot and do not warrant that our prices or the prices we secure for you are or will at any time be the best prices available to you. Transactions in futures and options involve a high degree of risk and are not suitable for many members of the public. Such transactions should be entered into only by persons who have read, understood and familiarized themselves with the type of futures and options, style of exercise, the nature and extent of rights and obligations and the associated risks. The objective of this statement is to explain to you, briefly, the nature of trading in the products offered by JMI Brokers LTD, prior to your engaging in such transactions. In particular, you must be aware that the risk of loss in trading foreign exchange and precious metals and Futures (OTC) can be substantial. However, this statement does not purport to disclose or discuss all of the risks and other significant aspects of any transaction. You should therefore consult with your own legal, tax and financial advisers prior to entering into any particular transaction. By signing this Risk Disclosure Statement, you understand that no one can guarantee trading profits and past results do not assure future profitability, and you acknowledge and confirm that you have fully read and understood the Risk Disclosure Statement and that you are treated as experienced and/or professional Customer.
